

SCAPT –DIVISION 4

MOVING FORWARD IN THE RIGHT DIRECTION

IN THIS ALERT

1. **Student Behavior Management PPT Status.**
2. **More Training to Come**
3. **Summer Conference**
4. **Technician ROAD– E-O reminder**

On May 4, 2023 Division 4 sent a presentation on School Bus -Student Behavior Management to all members of Division 4. The presentation discussed the challenges of student management, alliances with school administration, student expectations while riding the bus, understanding the minds of students, improving student behavior, special challenges such as special needs, bullying and weapons. It also covered driver and attendant tips as well as the proper way to right bus referrals.

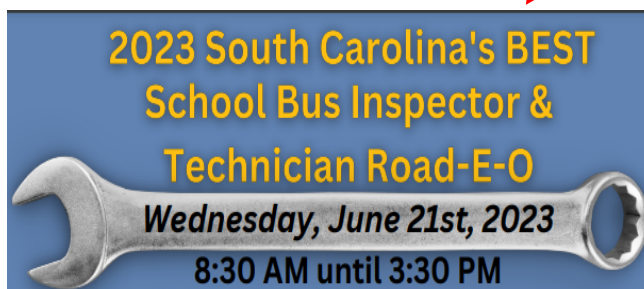

Up next will be De-Escalation Training.

De-Escalation training is essential to help bus drivers prevent a bad situation from becoming worse. It's always been important for school staff but now it's time to make this a part of the school bus training program

Don't miss the opportunity to connect and learn with other SCAPT members and SESPTC members. This will be a time to collect useful ways to make the transportation industry better in South Carolina. So mark your calendars! We look forward to seeing you there!!
